IMPACT Internship at Pluralsight
Your quick reference guide to what it’s like to be an IMPACT intern with us!

Test the waters with an internship
We’re all about investing in and developing promising talent. If "secure an awesome internship with a super cool company" is on your college to-do list, you should totally apply.

Get paid
Score a full-time, 12-week paid internship from May – August with a cohort of other interns.

Learn more
Develop professionally and personally through a plethora of learning opportunities.

Have fun
Get offline and connect with other interns. Grown-up field trips for the win!

Feel empowered
Work on high-impact projects and enjoy the freedom to create your experience.

Previous intern roles: Software Engineering, Data Engineering, Machine Learning, Marketing, and more.

HBCU IMPACT
For this internship, you will be a part of a cohort program called ‘HBCU IMPACT’. This program is a partnership with the University of Utah where you will be connected with other HBCU students who are interning at various companies in Utah for the summer. The University of Utah will house students in campus dorms at the Lassonde Studios, plan workshops to enhance their professional skills, and coordinate weekend activities that expose students to Utah’s unique culture.

For more information on HBCU IMPACT please visit: https://diversity.utah.edu/hbcu-partnerships/impact/

Why Utah?
Yes, this internship takes place in Utah and yes, it’s more than meets the eye!

- Culture - From film festivals, to amazing food, to professional sports. We’ve got a little bit of everything! And Utah diversity continues to increase. Salt Lake City is a welcoming, inclusive city and the Utah Black Chamber is a strong pillar in our community.
- Nature - You’ll have to see it to believe it but it’s beautiful here! And all of the nature makes it an amazing place for outdoor activities - skiing, hiking, biking, camping, and stargazing to name a few.
- Tech Community - Silicon Valley? Nope - Silicon Slopes! More than 25 major tech brands have their HQs here, including us!
